MER'S" CHANGING EMPLOYERS. Competition among the diamond merchants and dewellers of Maiden Lane and Nassau-st. is keen, and a first-class "drammer" can always command a position and a good salary. Isadore Guntzberger, who is now employed by Max Fruend & Co., of No.

who is now employed by Max Fruend & Co., of No. 8 Maiden Lane, was formerly employed by Maks Lazar, of No. 85 Nassau-sa, and the two were then the best of friends. Now they are engaged in open warfare in the courts, and are suing each other for assault, defamation of character and other causes.

About the first of last March, Guntzberger went to Cincinual to sell diamonds for Lazar. He showed a parcel of them to Mr. Oskamp, of Oskamp & Moulting, who found that one of the stones was not "clean." He had previously written to Mr. Lazar asking for perfect goods to be sent, and he did not buy. When Guntzberger returned to New-York he reported to inntaberger returned to New-York he reported to Lazar that one of the diamonds was imperfect and de-clared they were just as he had received them, and the matter was supposed to have ended. Shortly afterward, the festive "drummer" went to sell diamonds for his present employers. Mr. Guntzberger aturally enough went among his old customers and intrduced the goods of his new employer, and this, it is alleged, is the real cause of the trouble. Soon afterward stories began to float aound the jewellers' headquarters that reflected on Guntzberger's integrity,

and he at once concluded that Lazar was the author.

The other day Guntzberger heard the story in a direct form and he became exceedingly angry. With a threatening demeanor and a temper very hot, he went to Lazar's office. The result was that the two went to Lazar's office. The result was that the two men came to blows, and the fight ended by the arrest of Guntzberger, who was admitted to ball to await the action of the Grand Jury. The same day he in-structed his counsel to begin an action for false im-prisonment and defamation of character, laying the damages at \$5,000. At the same time Lazar's lawthe damages at \$5,000. At the same time basar's law-yer began a civil action against Guntzberger for assault and battery, claiming \$2,000 damages

In his affidavit Lezar says that he gave Guntzberger some parcels of diamonds to show to Mr. Oskamp, and that when Guntzberger returned one of them was not perfect. As Guntzberger declared that he had received them in that condition nothing more was thought of the matter until Mr. Oskamp called on him. Mr. Oskamp, so Mr. Lazar declares, said:
"How did you make out on those diamonds that
were changed on you?" Mr. Lazar says he was much surprised at this, and that when Guntzberger came to his office he told him about it. Guntzberger called him a liar and struck him.

The affidavit of Mr. Oskamp states that the

diamonds shown to him by Guntzberger were not what he ordered. That one of them was imperfect, and that when he called Guntzberger's attention to that fact, he said that some dealer had changed the stone The stones weighed 3-16 carat more than the "paper" called for. Guntzberger declined to give him the name of the dealer whom he claimed had

Mr. Guntzberger denies those statements and says mer" who was taken sich while on the road, and that he was ordered to receive them. He did not, he declares in his affidavit, received them from Mr. Lazar. He also declared that he weighed the stones in the presence of Mr. Oskamp and that they were the weight called for.

### TWO REPORTS ON A SCHOOL TEACHER. ONE WOULD HAVE HER REPRIMANDED; THE OTHER

URGES HER REMOVAL. ore than a year there has been a bitter dis sension between the school trustees of the Ninth Ward and yesterday the matter came officially before the Board of Education in the reports of a committee in regard to charges of incompetency made against Miss Elizabeth A. Pope, the principal of the Female Department of the Grove Street School, No. 3. Two of the trustees, E. J. Tinsdale and C. A. Benedict, maintain that Miss Pope is incompetent but the majority. Trustees Ehlers, Scaman and McNamars declare their full confidence in her ability as a teacher. Two reports were made by the committee; both find that much demoralization has arisen from the dissensions among the trustees. The majority report is of the opinion that the principal is not responsible for the demoralization. It says that there is a want of harmony and co-operation with her on the part of the trusfees, but it recommends that Miss Pope be

Mr. Crary. It maintains that the school, which is one of the largest, should be one of the best in the city and that it is not is due mainly to Miss Pope, who is unqualified and unfit to be its principal treatment of teachers, it says, has been unjust and discourteous; her language at times improper and uncalled for and tending to demoralize her school. and uncalled for and tending to demoralize her school. She has, it adds, continually held back pupils who should have been promoted and enforced rules that were cruel to teachers and pupils and refused to modify them when directed to do so by the Board. It urges that the City Superintendent report Miss Pope's incompetence to the Board of Education for her removal. The reports were briefly discussed yesterday and then the matter was postponed to the second meeting in September for further consideration.

reprimanded for disrespect to a trustee, and that an investigation be made of the conduct of some of the

ation.

A resolution was adopted asking what further progress had been made by the trustees of the Thirteenth Ward in the investigation of the care of Miss Mason, the answer to which will be made at the last meeting of the month next Wednesday.

### THE BLIND WILL GET IT, ANYWAY. A DISPUTE OVER THE CONSTRUCTION OF A CHARI-TABLE BEQUEST.

A suit for the construction of the will and codicils of Mary Hopeton Drake, who left \$100,000 to various charitable institutions, including \$5.000 to "the New-York Blind Asylum," was decided by Justice Lawrence in the Supreme Court yesterday. As there is no such institution as "the New-York Blind Asylum," both the New-York Institution for the Blind and the Society for the Relief of the Destitute Blind of the City of New-York claimed the legacy.

The Judge decides that the former is entitled to it.

as it is the older and better known institution, which the testatrix doubtless had in mind, and is an asylum under the articles of incorporation as amended. Other questions raised by Benjamin C. Wetmore, as executor, re settled by the declarations of the Judge that cer tain legacies which lapsed on account of the death of beneficiaries must go to the minor grandchildren of James Drake, the father of the testatrix, and that the charitable societies are entitled to nothing until the specific legacies are paid.

# REMOVING AN EXECUTOR.

Joseph O. Allen died in March, 1884, leaving the bulk of his estate to Henry C. Allen, who was appointed executor. In a suit brought against the latter by Albert H. Allen, grandson of the testator, through his guardian, Joseph N. Allen, the executor has been removed by Justice Lawrence, of the Supreme Court, for mismanagement of the estate, and a judgment has been entered against him for \$20,286 75 for which he has failed to account. Rebecca D.

# HOWELL OSBORN'S BAD DEBTS.

William L. Stow having obtained two judgments for money due on stock transactions, Osborn's seat in the Exchange was sold and proceeds were applied judgments were thus educed to \$47,000. Stow sued the executors of Charles J. Osborn, demanding that of the \$25,000 annual income derived from property left by him in trust for his son Howell, all but \$2,500 a year should be applied to the payment of the balance due. Justice Andrews, of the Supreme Court, yesterday decided that, as personal service of the sum-mons had not been made in the original suit against Osborn, this action could not be maintained.

### NEW-YORK. NEW PRIMARY BATTERIES FOR HOUSE LIGHTING AND POWER. NO DYNAMO, NO NOISE, NO FUMES, NO DANGER.

Current absolutely harmless and reliable. Lamps do it wink or go out suddenly like those of Dynamo currents. Independent batteries for houses, stores, or offices, giv-ing from 100 to 120 hours' light for each lamp, available at all hours, day or night. These batteries are easily adjusted, require but little ttention, and are run at low cost. Batteries for from one sixteen lights now on exhibition.

Also new open-circuit batteries for telephones, bells, &c., of greater efficiency than any other make and at lower prices.

firms who made default in their deliveries by not giving the usual twenty-four hours notice, must settle their con-tracts at the average price of the day, 18-53 cents per pound and pay a penalty of one-fourth cent per pound extra for such default, thus making the ptice 18-78 cents per pound or 2.27 cents below the highest price of the day.

The Iron Steamboat Company has leased to the Central Railroad of New-Jersey for the next few days the steamer Cepheus, and out of this grew the rumor that the railroad, which will use the boat on its Sandy Hook route, intended to purchase the entire flect of the Iron Steamboat Company. Both Fresident Maxwell, of the railroad, and President Carpenter, of the steamboat company, denied that a purchase was in-tended or that an offer had been made.

ABSOLVING THE EURERA MINING COMPANY. As the result of tharges of a damaging nature against the Eureka Consolidated Mining Company, a committee to investigate the affairs of the company was appointed by the president of the San Francisco Stock and Exchange Board. The committee, consisting of Joseph Marks, M. J. McDonald, A. G. Gurnett and A. H. Lissak, made a report in which it is stated that the charges against the company are without

ROBINSON GOES TO SING SING FOR LIFE.

Colden Robinson, the negro who was recently con-victed of murder in the second degree, for killing his wife and cutting his sister-in-law's throat, at No. 70 Grove-st., on March 30, was removed from the Tombs to Sing Sing yesterday. On the trip he was fastened to James Lynch, who was convicted of assault and sentenced James Lynch, who was convicted or assault and scheduler to four years and five months in Sing Sing. Patrick Murphy, a burgler, and James Kelly, a thief, completed the company, which was accompanied by Deputy-Sheriff Reilly. The party bearded the 8:20 train at the Grand Central Station for Sing Sing. There was a rumor affect that an attempt would be made to rescue Robinson, but no trouble was experienced. The convicted murderer was evidently much pleased that he had escaped from the gallows, and looked forward with hopefulness to the imprisonment for life at Sing Sing. Before leaving the Tombs he thanked the warden and the keepers for their

# GRAIN AND PRODUCE MARREIS.

The Produce Exchange markets were strong throughout the day on the reported improvement in the European the day on the reports of wheat at English ports are remarkets. The imports of wheat at the same time last ported to be much smaller than at the same time last year, and the amount now alloat is not large. There was good buying for foreign account yeaterday, and in consequence the tone of the market was firmer. Providions were in better demand in consequence of the advance in grain and small receipts at the West. The closing was steady at slight reactions from the highest figures.

# EARNINGS ARE STILL GAINING.

Thursday, July 5-p. m. Twenty-three railroads have reported their gross earnings for the fourth week in June. Of the number, fourteen companies have returned gains and nine have returned losses, but the aggregate gives a gain of 6.40 per cent on the week of 1887. The totals of the companies showing losses are swollen by the returns of St. Paul and Louisville and Nashville. The following shows the aggregate and differences:

Fourth week in June—1887. 1888. Differences cent. Fourteen co's... \$1.348,315 \$1.639,343 Inc. \$231,628 \$21.70 Nine co's..... 1.500,503 1,487,037 Dec. 103,556 6.65 Total 23 co's ... \$2,938,968 \$3,126,980 Inc. \$188,072 6.40

AN UNDERTONE OF STRENGTH. The day's stock speculation was dull, and 52,392 shares is the record of transactions at the Stock Exchange But the small and insignificant dealings were characterized by an under tone of strength which was in marked contrast with the paid-for outgivings of the leading " bears," which continue to be of the same discouraging character as herotofore. There is no reason to expect anything different. The "bears" are short of heavy lines of stock—to-day's loan market character as heretofore. There is no reason to espect anything different. The "bears" are short of heavy lines of stock—to-day's loan market developed no material change—and they alone are spending any money to further a socculative interest. They have fought for dulusss and the rain of brokers—partially they have succeeded—but without the anticipated profit to themselves. The market is dull, but that neither brings real certificates or contracts for phantoms to market; the latter recently made came back with an advance of 1a2 per cent, but that sort of business is not satisfactory to the "bears," as it marks just so much, off the prices of earlier sales. The recent disturbance among the Eastern trank lines calls for a special and prompt investigation by the Interstate Commissioners. Is it possible that some one or two of the freight officials of those lines are allied with Wall Street "bears?" It looks like it, because before the existing demoralization occurred the bears' organs predicted just what has occurred. The situation is much exaggerated. Yet there is some disturbance, but no railroad official holding the ordinary relations of employer to employe could give a satisfactory explanation for it. Call it speculation and you won't be far wrong. Bad as the real situation is, the veteran "bear" of the day, if not his cubs, can recollect when he sold the trunk lines because the live stock rate was \$1 per car from Chicago to New-York; the never recovered the stocks sold except at a large loss, and after that the prices rose some 40 per cent. His friends, the freight agents, captured the "boodle." The East-bound shipments from Chicago by rail for the first six months of the year were \$83,753 tons, against \$18,791 tons in the same time of 1887. And yet we are told the trunk lines are fighting because of the small business. Of course, this through business is a very small percentage of the companies' business; they would better surrender the whole of it than demoralize the whole business by fighting. Grain and flo
